Arc Lectern

Australia's number one selling modern church lectern has been discovered by UK pastors. Procson lecterns are made specifically for contemporary churches. They are found in churches with 25 to 18,000 members in the UK, Holland, Denmark, Ireland, Spain, Israel, Singapore, NZ, Canada, Korea, and the USA, and seen in Hillsong church on the God Channel. Sleek lines and neutral materials characterise this lectern. Its minimal look means it suits a variety of interiors. It is light enough to be carried on and off stage by one person. Materials are radial brushed stainless steel with a clear plastic scratch resistant top. This lectern is often used for television broadcasts. In this case, an anti reflective film is factory applied to the perspex to eliminate glare. The 70cm (28") version is the most popular.

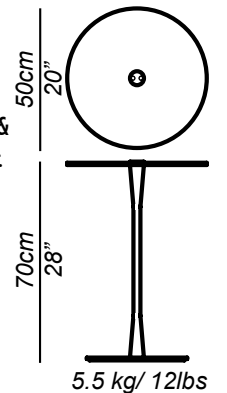

60cm (24") wide	£ 545
70cm (28") wide	£ 595
Cover	£ 25
Anti reflective film: add	£ 55
Freight (in UK)	£ 20

Arc Table

A table to suit the Arc lectern. To be used for a water glass, jug, laptop computer & other resources. 70cm (28") high so items are within easy reach for the preacher. Its usefulness means that the majority of churches that purchase the arc lectern also purchase the Arc table. Made from stainless steel with a clear perspex top.

Table	£ 320
Cover	£ 25
Anti reflective film: add	£ 55
Freight- with lectern (in UK)	£ 10
Freight- ordered alone (in UK)	£ 20

'We are a church that has a heart to reach the next generation, and it is important for us to reflect that in everything we do including our stage design and props. In the arc pulpit, we have found a pulpit that's both cool and functional. We are thrilled and excited!' -Ps Michael Norwood, The Life Church of Memphis, TN, USA

'We recently purchased an Arc lectern from you. We liked it so much, we would like to order another one.' -Thea Klaus, Shofar Christian Church, London, UK. www.shofarworld.com

'Mike, it was great to meet you at the Esher show and to do business with you. Our new lectern is in pride of place in the front of our Church ready for the Word of God to be fed to our people. Thank you so much for your helpfulness in packing and delivering our item at the show. It was so easy to put together.'
-Ps Pete Cunningham, Shoreline Church, Southport, UK. www.shorelinechurch.co.uk

'Just to let you know the lectern arrived safe and sound. It was easy to put together and looks just great. For me the 70cm is the way to go - in fact, it's the perfect size.'
-Ps Myles Coulter, Russell Park Baptist Church, Bedford. UK. www.russellpark.org

'Everyone thinks it looks great...and it exceeded expectations. Thanks for all your help!'
-Andrew Jenkins, Newport Gate Church, Newport, South Wales, UK

'We do church in a nightclub- the lectern and table look great!'- Rebecca Jacob- Amistad Cristiana, Calle Vallehermoso 70, Moncloa, 28015 Madrid, Spain

'We do love our new pulpit! It suits our needs perfectly, and it has proven very functional for both adults and children to use. We had some children read scripture on Christmas Day, and having the plexiglass pulpit worked well. What we had used previously would have dwarfed them. It is very easy to move for one person, making our entire stage more functional. Shipping the product from Australia was quick and without any issue. When a new part needed to be replaced, you handled it quickly, and we had our new piece in a very short time, with no problems. Around the world does seem like next door nowadays! Thanks again for serving us so quickly and with such care. We are delighted with our new pulpit and table, and would recommend it to anyone!'
- Shirley Drost Helps Director Koinonia Christian Fellowship, Canada

Adjustable Arc Lectern

The new adjustable arc has 2 benefits over a regular adjustable lectern. Firstly it has a clicking mechanism to prevent slip, secondly it can be carried by one person.

The adjustable arc has a clicking mechanism with 5 positions. This means that (unlike most adjustable lecterns) the mechanism will still be reliable after years of use. Many preachers have had the experience of placing something heavy on a music stand, only to have the music stand pole slip down. The same is generally the case with any regular adjustable table or lectern.

All the parts have been re-engineered to make them as light as possible. The result is that at 10.3kg/22.7 pounds, it is only 1.8kg/ 4 pounds heavier than the regular arc.

70cm (28") wide	£ 890
Anti reflective film: add	£ 55
Cover	£ 25
Freight (in UK)	£ 20
